Avi-Cenna Center @ UOB

- Avi -Cenna E-learning Center was established at 2015 and directly connected to the office of the head of UOB.
- The main target of the center is to provide a suitable environment to apply and improve E-learning at the university.
- Avi-Cenna center was established as a division (in 2009) and it is important to mention that the OPATEL project has supported UOB (both technically and financially) via Avi-Cenna center.

OPATEL Erasmus + project & E-learning

- The OPATEL project gives a push forward to Avi-Cenna center to create an E-learning platforms at the university and organized project to train the university staff about how to use these platforms.
- To organize the E-learning systems at the University, Avi-Cenna center start to create an official E-mails for all staff members.
- The E-learning systems at the university was activated through cooperation between Avi-Cenna center and some faculties, such as faculties of Medicine group, college of Engineering, college of Science.
- About 5000 students have been participated in E-learning training classes by using Moodle, Google Classroom, and Edmodo platforms.

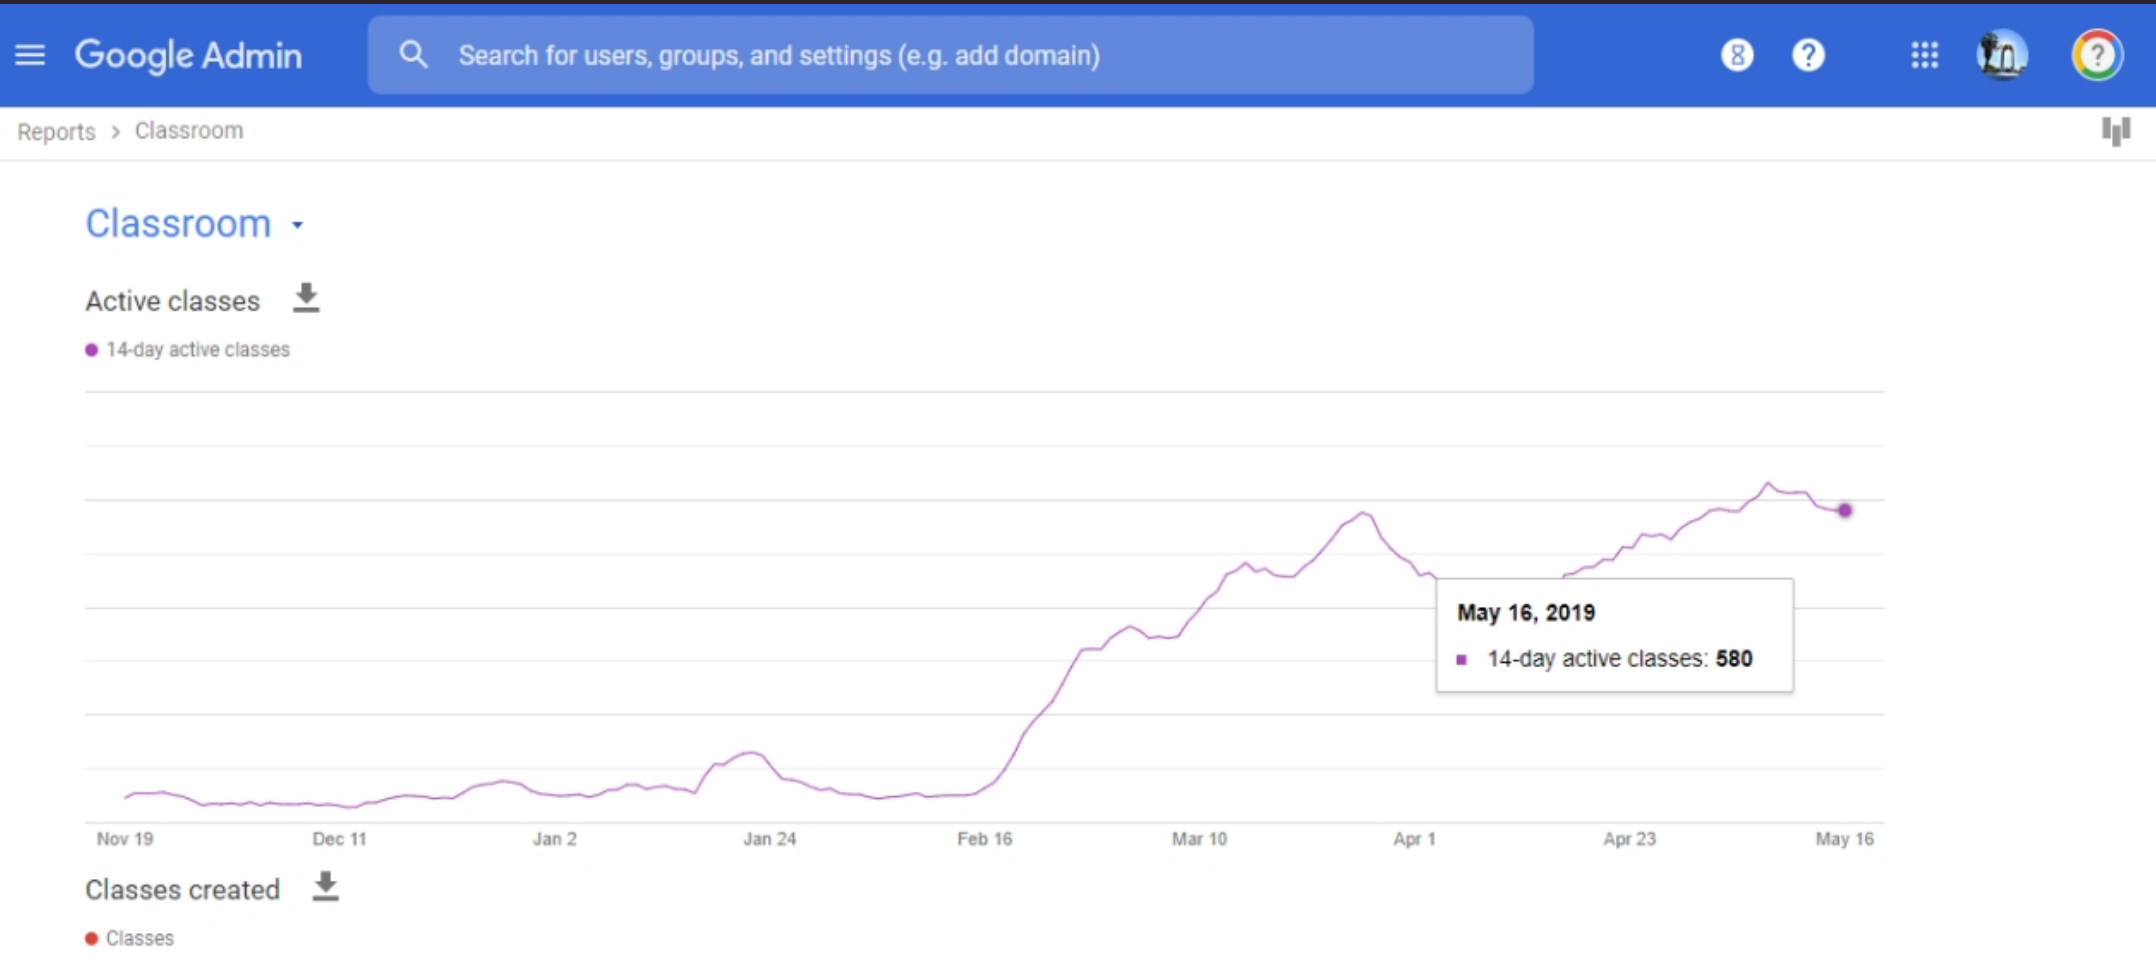

OPATEL Erasmus + project & E-learning

- Several training courses were held in OPATEL training hall at Avi-Cenna center for many groups for university teachers regarding the use of E-learning system platforms.
- The trained staff members and students at university start using Google classrooms, Edmodo,...etc, by creating a user name and password for each one. And then, most of the theoretical and practical courses were uploaded by staff, as well as, the important notifications such as timetable, appointment for examination, marksetc. In addition, the teaching staff apply an online formative exam via the Google classroom or Moodle applications.

Google Classrooms @ UOB by numbers

- Total number of teachers = 4557.
- Total number of active teachers = 1132.
- Total number of google classrooms =809.
- Total number of students = 15384.
