University of Baghdad –UoB

Dr. Mohammad Sadiq

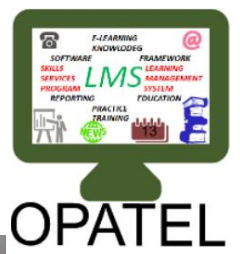

1- Training of the University staff:

Due to the serious global health issue the mission doubled, therefore we start our program with intensive training course for the university staff to develop their skills to communicate with the student via E-learning platforms start from January 2020. The main platform used in Baghdad University is google classroom and G-Suite application. The number of staff trainers was about 1000 staff members in different faculties able to create their classes and upload the materials and track the students by asking questions and tasks. The pictures show how OPTAL lab used for training purpose.

3- Supervision the final examination for postgraduate and undergraduate students

The center helps the university to achieve the exam and evaluation processes for both postgraduate and undergraduate study by organizing online workshops and training course for the examination community and take the responsibility to support and supervise the process from 24/6/2020 and continue up to now.

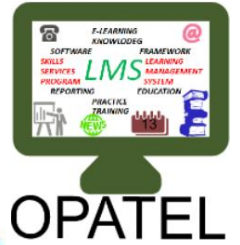

4- Conferences and global training programs

The center hold and take part in many conferences either inside Baghdad University or with other university to share the experience. In term of share the experiences and open to the world the center play an important role to support the university staff members by join IREX training program to develop the staff skills and improve the E-learning quality.
