

Dissemination of the project OPATEL at UPAT in Patras Innovation Quest (Patras IQ)

Event: Patras Innovation Quest

Date: 27-29.05.2018

Website: <https://www.patrasiq.gr/>

Patras IQ is one of the most important events in western Greece region with more than 6.000 visitors every year and focus in the interconnection of know-how and innovation with entrepreneurship. Laboratories, research institutions, public and private bodies presented their achievement from 27 until 29 May 2018.

Main activities were:

- Exhibits and models of innovative research products
- Applied research presentations
- Speeches of start-ups and innovative small and medium-sized enterprises
- Speeches on transferring know-how, intellectual property and finding resources to finance the conversion of innovative ideas into products
